

Post 16 - 4

MEET THE STAFF

Class Teacher: Pauline Woodcock

Educational Teaching Assistants: Caroline Shaw, Natalie Jones, Velda Bentley

Activity Support Officers: Dawn Bower

Lunchtime Supervisors: Michaela Senior, Diane Grogan

What Happens in Our Class?

Welcome to Post 16 -3. We have 6 students in our class who all follow a personalised timetable, specific to their needs. Our classroom has multi-sensory learning areas so that we can develop our skills in different ways. We keep busy with switch work, eye-gaze, tac-pac, physio, rebound, hydrotherapy, sensory story and sensory exploration activities. We are working hard to develop our independent skills ready for the move to adulthood.

The School Day

Our school day starts with a daily walk or sensology, to help wake up our senses. Later we move to individual work areas to work on our personalised timetables and targets. After break we share a group activity such as sensory story or dance massage. In the afternoons we have either a physical lesson such as MATP or gardening or a creative lesson such as music, enterprise or sensory art.
