Lunchtime Supervisors: Tracy Hunter, Natsuki Barlow

What Happens in Our Class?

Our class is made up of 7 fantastic students. We enjoy sensory activities and we work hard on developing independency and social skills. We love spending time outdoors using the swing, reading den and the enjoying the walk in the meadow. Our class motto is work together and have fun!

The School Day

In Post 16-2 we start the day with a personalised task linked to our individual targets. We then come together for our communication session. During the morning we work on developing our life skills and communication through food preparation and breaktime activities. Sessions throughout the week include sensory art, cooking, music, numbers in the environment, movement, yoga, peer massage and visits to the community.
