

Post 16 - 4

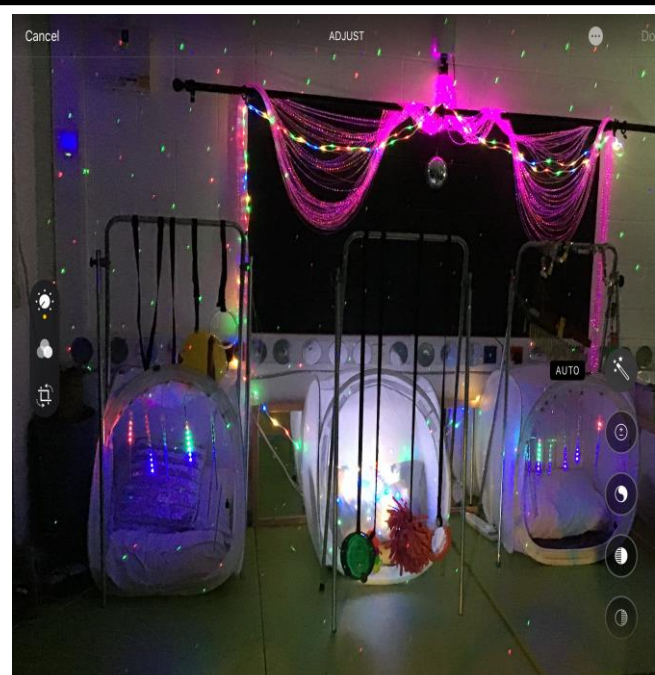

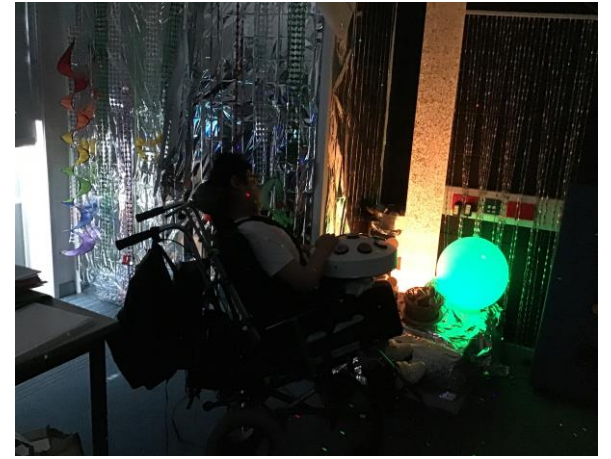

MEET THE STAFF

Class Teacher: Pauline Woodcock

Educational Teaching Assistants: Velda Bentley

Activity Support Officers: Dawn Bower, Christopher Whitehead

Lunchtime Supervisors: Michaela Senior, Diane Grogan

What Happens in Our Class?

Welcome to Post 16-4. We have 7 students in our class who all follow a personalised timetable, specific to their individual needs. Our classroom has multi-sensory learning zones, where students can work to develop skills in different ways. We keep very busy with switch work, eye-gaze, physio, rebound, hydro, yoga, work-related baking, sensory story and sensory exploration. We are working hard to develop our independent skills ready for the move to adulthood.

The School Day

Our school day starts with personalised learning in our individual work zones. After break we share a group activity such as yoga or a sensory story. In the afternoon we have either a physical lesson such as MATP or gardening or a creative lesson such as art, enterprise or music.
