

Post-16 3

MEET THE STAFF

Class Teacher: Becky Sorensen

Educational Teaching Assistants: Lisa Killoran (Makaton lead), Karen Horner, Mykaela Howard

Activity Support Officers: Demi-Jo Samme, Leigha Hudson

Lunchtime Supervisors: Sam Manning, Claire Overend

What Happens in Our Class?

We all like our space in Post 16-3. For that reason, we have two classrooms and separate workstations to complete our learning activities. We have lots of opportunities to practise our life skills to prepare for adulthood. We also take lots of movement breaks, such as going for a walk in the meadow, accessing the swing and new sensory playground, which helps us to engage in more focussed work.

The School Day

Every morning we practise our personal targets before coming together as a group to wake up our senses ready for the day. Throughout the week we enjoy lots of different activities such as, cooking lessons, music, art, and sensory story where we develop our communication and life skills. We particularly enjoy our afternoon well-being sessions such as yoga, story massage and time in the sensory pod.
