

## Post 16 – P16-5

### MEET THE STAFF

**Class Teacher:** Andy Cullen

**Educational Teaching Assistants:** Victoria Hargreaves, Sam Leadbeater, Claire Chapman, Laura Scott

**Activity Support Officers:** Laura Robb, Emily Dickinson

**Lunchtime Supervisors:** Hazra Akhtar

### What Happens in Our Class?

In PS-5 we follow a life-skills based curriculum with a focus on preparing for adulthood. We each have personalised learning goals that we are working on according to our individual needs, as well as coming together as a class for a range of fun and engaging group activities, ranging from cooking to yoga. We take part in weekly community visits, where we get to learn about the wider community and our place within it. We also take part in work-based learning opportunities such as working in the school café, work experience placements in the local community and enterprise projects to help raise money for school.

### The School Day

Our day begins with personalised learning and physiotherapy, where we focus on our individual goals across our four key areas of learning. Each student follows their own personalised timetable that may include a range of interventions according to individual areas of need. We then have a snack break, where we work as independently as possible to prepare our snacks ourselves. Following this we have topic-based learning across a range of subjects including cooking, travel training, PE and art. After lunch, we may have further lessons or join our peers for Sign and Sing or assembly. All our learning links to our personalised learning goals, as well as accreditations in ASDAN Personal Progress, PSD and Functional Skills Maths and English
